From the day she was born, Trisha knew she was different.

She had Tourette Syndrome, a disorder that made her twitch and make sounds that she can't control.

But one day, Trisha discovered something about her tics...

something special.

They had given her special powers... powers like changing the way things look and creating sonic waves!

She decided to use her power for good, using the name the bullies used to tease her to mask her identity and give her power. She would defy evil and stand up for those who were DIFFERENT!

Then, one night, she discovered two foul foes, such as the deplorable...

DR. SITSTILL!

With the incredible power of Telekenisis!

and his sidekick, the Malevolent

Misfire!

Both were out to destroy the city and everyone they thought was "unevil".

In the name of honor and justice, Twitcha battled the terrible team...

With the Dastardly Dr. Sitstill off to prison for his crimes, Misfire thought about her actions.

She knew it wasn't what they had done to the city, ALL people deserve respect no matter what.

...Using her ties and her powers to put a stop to their perilous plan.

It's wrong to be mean to those who are different than you.

of course.

I know, I'm sorry. Can you ever forgive me?
